

FRIDAY, 05.05.2023.	
Welcome and short introduction: Goran Roić/Gordana Ivanac	
17:00 – 17:10	Goran Roić/Gordana Ivanac
17:10 – 17:40	SENIOR LECTURES
MODERATOR: Gordana Ivanac, Goran Roić	
17:10 – 17:20	Zoltán Harkányi: A short history of the junior radiology symposium, 1999-2023., Hungary
17:20 – 17:30	Imre Csemez: Epitheloid Hemangioendothelioma – a Rare Case of Malignancy, Hungary
17:30 – 17:40	Bálint Botz: Ultrasound probe quality assurance in the daily clinical practice, Hungary
17:40 – 18:30	BREAST
MODERATOR: Maja Marolt Mušič, Boris Brkljačić	
17:40 – 17:50	Vesna Jugovec: Role of preoperative MRI in breast cancer nodal staging after neoadjuvant chemotherapy, Slovenia
17:50 – 18:00	Saša Kuzmanovič: How does combining CT evaluation with contrast mamography influence patient treatment, Slovenia
18:00 – 18:10	Darija Kovačević, Ljubica Luetić-Cavor, Jana Fila, Matko Gulin, Karolina Bolanča-Čulo: To B or not to B? B3 lesions – diagnostics and treatment, Croatia
18:10 – 18:20	Jožef Ostroško: Interventional procedures of the breast, Slovenia
18:20 – 18:30	COFFEE BREAK
18:30 – 19:00	HEAD AND NECK
MODERATOR: Katarina Šurlan Popovič	
18:30 – 18:40	Josipa Ratković, Lucija Čolaković, Tajana Turk: Hemorrhagic complications following acute ischemic stroke treatment, Croatia
18:40 – 18:50	Peter Kalmar: False-positive malignant diagnosis of nodule-mimicking lesions by computer-aided thyroid nodule analysis in clinical ultrasonography practice, Hungary
18:50 - 19:00	Maja Šljivič, Damjana Ključevšek ÷ Ultrasound of lymph node in children: differential diagnosis and imaging approach to lymphadenopathy, Slovenia
19:30	DINNER

SATURDAY, 06.05.2023.	
09:00 – 10:10	DIFFERENT TOPICS
MODERATOR: Damir Štimac, Primož Caf	
09:00 – 09:10	Bende Pelyvás: Radiology on social media - the founding of an Instagram page and the experiences of the past four years, Hungary
09:10 – 09:20	Ádám Brzózka: Measuring radiologist workload: Reporting times based relative value units for CT, Hungary
09:20 – 09:30	Eszter Vraukó: ASPECTS vs. e-ASPECTS: Mistakes and Errors in Everyday Radiology Practice, Hungary
09:30 – 09:40	Farzaneh Sadeghi. A case report demonstrating the risk of harm whilst waiting at ER ward, Hungary
09:40 – 09:50	Gabriela Rjašková: Some of the pitfalls awaiting (not only) the young radiologist, Slovakia
09:50 – 10:00	Milan Helebrandt: Satisfaction of search, missed findings and how to avoid them, Slovakia
10:00 – 10:10	Matea Raič: Mammography unit vs. X-ray specimen cabinet, Croatia
10:10 – 10:20	Andrej Schmiedl: Admitting service and management of interventional radiology beds by interventional radiologists - single center experience, Slovakia
10:20 – 10:40	COFFEE BREAK
10:40 – 11:40	ABDOMEN
MODERATOR: Andras Palko, Ivan Žokalj	
10:40 – 10:50	Eszter Varga: Imaging of complicated pancreatitis - from acute to chronic, Hungary
10:50 – 11:00	Maroš Rudnay: Pancreatitis in MRI, Slovakia
11:00 – 11:10	Domagoj Bošnjak: Partial agenesis of the dorsal pancreas: case report and literature review, Croatia
11:10 – 11:20	Marija Čavar Borić: Estimation of colon cancer grade and metastatic lymph node involvement using DWI/ADC sequences, Croatia
11:20 – 11:30	Janka Václaviková: Splenic injuries – trauma not being the unique cause, Slovakia
11:30 – 11:40	Sven Želalić, Lovro Kavur, Filip Staržik, Filip Brkić, Vinko Vidjak: Atypical Presentation of a Cholangiocarcinoma – A Case Report, Croatia
11:40 – 13:10	THORAKS
MODERATOR: Melita Kukuljan, Laszlo Kostyal	
11:40 – 11:50	Tünde Kiss: Congenital Bronchial Atresia – An Often Problematic Diagnosis, Hungary
11:50 – 12:00	Jure Buljević: Non-invasive staging of lung cancer, Croatia
12:00 – 12:10	Nika Jošt: CT-guided lung biopsy, Slovenia
12:10 – 12:20	Miha Pernat: Artifacts in chest CT, Slovenia
12:20 – 12:30	Tina Lovrec Krstić: Aortobronchial fistula, Slovenia
12:30 – 12:40	Anja Tomić, Ante Listeš, Tajana Turk: Transthoracic biopsy of lung lesions – risk factors associated with the development of postprocedural complications, Croatia
12:40 – 12:50	Ena Mršić, Melita Kukuljan: CT-Guided Aspiration of Pleural Empyema and Chronic Pleural Effusion, Croatia
12:50 – 13:00	Melita Kukuljan, Tin Nadarević: CT Interpretation of Pleural Effusion Etiology, Croatia
13:00 – 13:10	Levente Keresztes: Thoracic abnormal air collections in supine chest radiographs, Hungary
13:10 – 13:50	CARDIAC
MODERATOR: Attila Doros	

13:10 – 13:20	Istvan Antal Szabolcs: Thrombus detection in the left atrial appendage during acute stroke imaging using extended CT angiography, Hungary
13:20 – 13:30	Daniele Fontanini: Aortic pulsatility assessment on ECG-gated CTA in patients with abdominal aneurysms, Hungary
13:30 – 13:40	Anita Hernyes: Genetic background of traits contributing to reduced coronary blood flow, Hungary
13:40 – 13:50	Dávid Kocan: Incidental abnormal CT scan findings during transcatheter aortic valve implantation assessment: incidence and implications, Slovakia
13:50 – 15:50	LUNCH
15:50 – 17:00	GENITOURINARY
MODERATOR: Viera Lehotska, Adam Tarnoki	
15:50 – 16:00	Nikolina Tunjić, Ana Muldini Dragoja: Radiological presentation of all faces of nephrocolic in the emergency department, Croatia
16:00 – 16:10	Szuzina Fazekas : Pre-embolization volumetry of uterine leiomyomas using different self-adapting machine learning frameworks, Hungary
16:10 - 16:20	Kolos Turtóczki : Imaging of diaphragmatic endometriosis with photon-counting detector CT and magnetic resonance imaging, Hungary
16:20 – 16:30	Ellák Csaba Siket: Changes in the new (2019) Bosniak classification system, Hungary
16:30 – 16:40	Andrej Čarni, Peter Popovič: MRI/US fusion-guided prostate biopsy, Slovenia
16:40 – 16:50	Polona Vihtelič, Peter Popovič: Uterine artery embolization for postpartum and postabortal hemorrhage: our outcomes, Slovenia
16:50 – 17:00	Eva Vičič, Damjana Ključevšek: Quantitative contrast-enhanced ultrasound for the differentiation of kidney allografts with significant histopathological injury, Slovenia
17:00 – 17:20	COFFEE BREAK
17:20 – 18:10	VASCULAR
MODERATOR: Peter Popovič	
17:20 – 17:30	Lucia Lebdušková: Influence of stent design on major adverse events and restenosis rate in carotid artery stenting, Slovakia
17:30-17:40	Eva Vičič, Damjana Ključevšek : Imaging approach to suspected vascular anomalies in children, Slovenia
17:40-17:50	B. Diković , N.Rudman , B. Liška : MSCT coronary angiography in the assessment of chronic coronary syndrome, Croatia
17:50-18:00	Filip Vujević, Eugen Divjak, Luka Pfeifer, Boris Brkljacic, Gordana Ivanac: “Management of Endoleaks Following Endovascular Aortic Repair : A Case Report of Endovascular Revisions”, Croatia
19:00	DINNER

SUNDAY, 07.05.2023.	
09:00 – 10:50	MUSCULOSKELETAL
MODERATOR: Akos Jaray, Timea Hebar	
09:00 – 09:10	Urban Čizmarević: CT guided spine injections, Slovenia
09:10 – 09:20	Tina Tumpej: Ishiofemoral 4mpingement: diagnosis and treatment, Slovenia
09:20 – 09:30	Zuzana Trabalková: Extremity soft tissue sarcoma mimicking intramuscular hematoma, Slovakia
09:30 – 09:40	Martin Puchala: Sarcomas - diagnostic pathway and biopsies, Slovakia
09:40 – 09:50	Iva Perić: Imaging characteristics of pelvic insufficiency fractures after radiotherapy, Croatia
09:50 – 10:00	Filip Brkić, Vlatka Grgić, Vlatko Arambašić, Domagoj Kretić, Andrej Mitrović, Damir Štimac: Telangiectatic osteosarcoma - a case report, Croatia
10:00 – 10:10	Laura Poljančič: Radiologist's role in the assessment of shoulder instability, Slovenia
10:10 – 10:20	Živa Miriam Geršak: Role of MRI in the diagnosis of meniscal injuries, Slovenia
10:20 - 10:30	Enikő Mátyus: Deep medial collateral ligament injury of the knee in children Department of Radiology, Hungary
10:30 - 10:40	Thomas Ferenc, Tomica Bratić, Vitorio Perić, Andro Matković, Lovro Kavur, Vinko Vidjak: Transient osteoporosis as a cause of knee pain in pregnancy – a case report, Croatia
10:40 - 10:50	Vid Matišić, Gordana Ivanac, Igor Borić,: MR arthrography of the hip - looking beyond osteoarthritis, Croatia
10:50 – 11:20	COFFEE BREAK
11:20 – 12:40	HEAD AND NECK II
MODERATOR: Tamas Kincses	
11:20-11:30	Beata Zoltai: Orbital masses- A pictorial review of the most common orbital benign and malignant masses in adults, Hungary
11:30 – 11:40	Tajda Tornič: Fractions of the cervical spine, Slovenia
11:40 – 11:50	Cene Jerele: Visual ratings of cholinergic white matter signal abnormalities in dementia with Lewy bodies”, Slovenia
11:50 – 12:00	Tom Cvetkovič: PRES in Covid-19 patients, Slovenia
12:00 - 12:10	Antonio Klemenčić, Josip Hrabar, Paula Slatina, Mia Smoljan Basuga, Ivica Sjekavica: Intraorbital foreign bodies - A radiological point of view, Croatia
12:10 – 12:20	Viktória Máčajová: Thyroid ultrasound – focal thyroid lesions, Slovakia
12:20 - 12:30	Filip Murn - Megalencephaly-polymicrogyria-polydactyly-hydrocephalus (MPPH) syndrome, Croatia
12:30 - 12:40	Tamás Papp: Ultrasound Used for Diagnostic Imaging Facilitates Dendritic Branching of Developing Neurons in the Mouse Cortex, Hungary
